ARRIVING ON CAMPUS

Thank you for showing community care and following "We Precedes Me"

Questions? Contact health@vassar.edu

WHAT TO EXPECT

STEP 1: Head to Walker Field House to Obtain a Rapid Test

Please bring your Student ID and Pre-Arrival Test (if not previously provided)

If Arriving By Personal Vehicle...

Plan to remain in your car and complete the test via the drive-through route. The student should be seated on the driver’s side. Restrooms will be available for passengers at the testing site.

Please limit the number of non-essential passengers in the car for your safety and the safety of our testers.

If Arriving By Rideshare or Taxi...

Plan to have your driver drop you off at the front entrance to the AFC, in accordance with the posted signage. There will be a location for you to temporarily store your luggage while you complete the rapid test indoors.

STEP 2: Obtain the Results of Your Rapid Test

If Negative...

If your test result is negative, you will be allowed to move in to your spring semester room assignment. Please proceed to your housing area to pick up your key, unless otherwise indicated by your House Advisor. Keys for the TA’s/TH’s/SoCo’s will be distributed outside of AFC.

Visitors are not permitted within the housing areas. Please plan to remain in your room (with the exception of getting food or limited outdoor exercise) until the results of the PCR test are available.

If Positive...

Rideshare: If positive, you will need to move into the isolation waiting area and a Safety and Security vehicle will transport you to Health Services for a confirmatory PCR test and isolation housing assignment.

Personal Vehicle: If positive, proceed to Health Services in your vehicle for a confirmatory PCR test and isolation housing assignment.

You will not be allowed to move in to your spring semester room assignment until approved by Health Services.

Note: Students are required to arrive between 9am-4pm EST
