RETURNING TO CAMPUS

14 DAYS BEFORE

Minimize Your Exposure to COVID-19 and Schedule Your Pre-Arrival Test

COVID-19 can develop up to 14 days after exposure. Quarantining yourself or limiting your exposure to others outside of your household prior to your arrival on campus helps to ensure a negative test once you arrive.

3 DAYS BEFORE

Get Tested for COVID-19 and Prepare to Arrive on Campus

In alignment with NYS travel requirements all students will need to have taken a Covid-19 test (antigen or PCR) prior to arrival. Antibody tests are not sufficient. You do not need to have the result of the test to come to campus. Please note that if you’ve tested positive for COVID-19 within the past 90 days, do not get any COVID testing until you speak with a member of Health Services (845-437-5800).

Before You Arrive to Campus:
- Delete the Healow app
- Complete WMC portal registration and HealtheLife app (details in the all-campus email on January 29th)
- Schedule your PCR test for the day after arrival
- Download CoVerified app and sign in using SSO (details in the all-campus email on January 29th)
- Upload your negative COVID test into CoVerified

DAY OF RETURN

Follow the On-Campus Arrival Plan and Receive a Rapid Test Upon Arrival

All students arriving back on campus should head to the Walker Field House to receive a rapid test for COVID-19. Results of the test will be available in approximately 15-30 minutes after the test. Students are required to arrive between the hours of 9am-4pm EST.

Students who test negative will be allowed to move in to their spring room assignment, and will also need to have a PCR test at the Aula the day after their arrival on campus. Students should schedule this test via the WMC Portal or HealtheLife app. Students testing positive will receive confirmatory testing at Health Services and placed in self-isolation.

4 DAYS AFTER

Receive a PCR Test and Continue to Quarantine

Students who receive negative arrival tests will be required to complete a PCR test four days after their arrival to campus. Students should schedule this test via the WMC Portal or HealtheLife app.

Thank you for showing community care and following "We Precedes Me"
